PROFESSIONAL SUMMARY

Full Stack Developer (MERN Stack) and MCA graduate building production-ready, scalable web applications and AI-powered tools. Passionate about building scalable software solutions and solving real-world problems. Seeking an opportunity to grow and contribute as a software Developer.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, Python, React.js, Node.js, Express.js, Tailwind CSS

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Cloudinary, Vercel, GitHub Copilot

Soft Skills: Communication, Team Collaboration, Problem Solving

Languages: English, Marathi, Hindi

INTERNSHIP EXPERIENCE

Full Stack Developer Intern — TARS AI Pvt. Ltd.

Dec 2025 - June 2026

Nagpur, Maharashtra

Project: ONGC (CWC Committee Member Portal) — sewacwc-ongc.com

React.js | Node.js | Express.js | MongoDB | Cloudinary

- Developed a production-ready web application for **ONGC (Oil and Natural Gas Corporation Limited)**, delivering a secure, scalable solution with a robust admin portal, JWT-based authentication, and role-based access control, independently managing the complete software development lifecycle.
- Optimized system performance, automated key business workflows, and integrated backend services, deploying the application to production and improving operational efficiency and application responsiveness.

PROJECTS

DiagnoOps — Lab Management Platform - diagno-website-seven.vercel.app

React.js | Node.js | Express.js | MongoDB | Razorpay | Nodemailer

- Built a scalable full-stack Lab Management System with role-based access control, patient registration, test booking, report management, and JWT-based authentication.
- Designed and integrated RESTful APIs, improving frontend-backend communication efficiency and implemented SMTP (Nodemailer) to automate lab approval emails and patient report delivery.
- Built a responsive, scalable user interface, optimizing workflow efficiency and enhancing overall user experience.

IMAGEZ — AI Content Generation Platform - text-image-kappa.vercel.app

React.js | Node.js | Express.js | MongoDB | Gemini API | Pollinations AI (LLM)

- Developed an AI-powered full-stack application converting user prompts into AI-generated images, text, and source code.
- Integrated Google Gemini LLM API for text/code generation and Pollinations AI API for image generation, optimizing API integration and rendering workflow to improve performance and responsiveness.

Personal Portfolio - payal-portfolio-rho.vercel.app

React.js

- Developed and deployed a responsive personal portfolio showcasing projects, technical skills, and education.
- Implemented Web3Forms to enable secure contact form submissions directly to email.

EDUCATION

Master of Computer Application (MCA) — CGPA: 9.16

Jun 2026

Prof. Ram Meghe Institute of Research & Technology, Badnera, Amravati, Maharashtra

Bachelor of Computer Application (BCA) — CGPA: 8.62

May 2023

G H Raisoni Institute of Engineering & Technology, Nagpur, Maharashtra

CERTIFICATIONS & AWARDS

- Runner-up, GenAI Competition — organized by Sugarcane AI
- Python Programming — Cisco Skills for All
- Generative AI — Microsoft & LinkedIn Learning
- React.js — CodeWithRandom.com
- Participant, AI Agent Hackathon — IIM Nagpur
